

ELEVAH® 40 MOVE picking

The Elevah® 40 Move Picking allows safe picking activities up to 4 metres, with automatic elevation and a 24 volt battery. Made completely of aluminium, they provide excellent manoeuvrability in the tightest areas making them perfect for retail stores and warehousing.

Compact Design

Propelled on the ground with more compact wheel control for easier picking activities.

Wide platform

The large 66 x 92cm platform offers great product storage, whilst the levelled steering controls allows for easier stock picking.

Adjustable height

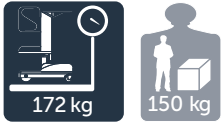

The manual hand remote control allows the operator to easily adjust the picking platform height, even when loaded, from within the basket.

Ideal Usage

- › Retail
- › Hardware
- › Warehousing
- › Automotive
- › Workshops
- › Hospitals
- › Electrical
- › Trade Shows

Specifications

Max capacity		110 + 40 Kg
Number of people		1
Use		internal & external
A	Stowed height	1550 mm
B	Min. height from the ground to the platform level	310 mm
C	Max. height from the ground to the platform level	1960 mm
D	Overall machine dimensions	995 mm
E		1640 mm
F		740 mm
G	Cage inner dimensions	700 mm
H		680 mm
Picking platform		450 mm 660 mm
Storage tray		270 mm 660 mm
Picking plate capacity		40 Kg
Machine weight		172 Kg
N° 2 batteries AGM 12 V		33 Ah* - 45 Ah**
Power supply		24 V
Battery charger		110 V - 220 V
I	Maximum climbing ability	15%
Driving steering-wheels dimensions		Ø 190 x 60
Fixed wheels dimensions		Ø 150 x 45
Turning radius		800
Maximum rising speed		0,08 m/s
Maximum descending speed		0,1 m/s
Maximum shifting speed		0,8 m/s - 3 Km/h
Work cycles*** (with fresh batteries)		100 - 150

* Standard

** Optional - 40BGM

*** By work cycle we mean a self-propelled movement of 20 m with a full ascent to and descent from the maximum height
